SCHEDULE A.

(*See* CLAUSES 2, 9 and 10).

Explanatory Note.—In this Schedule drugs are grouped in three Parts. Part I includes common medical preparations which contain the same sole active ingredients but are often manufactured under different names by different firms. A uniform ceiling price has been fixed for each such preparation, but where the manufacturer's listed retail price is less than this figure, that price shall be deemed to be the ceiling price for that particular manufacturer's drug. Unless otherwise stated, all preparations which contain any of the substances mentioned in Part I of the Schedule as the sole active ingredient are subject to the ceiling price fixed for such substance. Part II includes other preparations for each of which a ceiling price has been fixed. Basic pharmaceutical chemicals are shown in Part III.

2. Certain drugs are indicated by an asterisk with reference to Clause 10 of the Order. These do *not* require to be marked in the manner specified in Schedule B.

3. The ceiling prices include the cost of the container, and no extra amount may be charged therefor.

4. In the case of drugs which are sold in quantities or sizes different from those shown in column 2, the ceiling price shall be calculated *pro rata* on the price for the smallest unit: provided that as regards drugs specified in Part III, which are sold in quantities *smaller* than those shown in column 2 and the dealer has to break bulk, the ceiling price stated in columns 3 and 4, shall be deemed to be increased by 20 per cent, and an additional charge may be made for the container in which the smaller quantity is sold according to the following scale:—

Bottles, phials, jars or pots with cork stoppers or covers (to contain up to 2 oz.)	As. 4 each.
Bottles, phials, jars or pots with cork stoppers or covers (to contain 3—8 oz.)	As. 6 each
Bottles, phials, jars or pots with cork stoppers or covers (to contain over 8 oz.)	As. 8 each
